A Single Ring

We hold each other's hands at mass united as one,
just as a ring is unified and shines like the sun.
We have known each other for one year, 365 days.
We spread God's love in unison, like the powerful sun's rays.

Behind each victory there is a cross, large and ever-knowing,
for we have God behind our endeavors, and our faith is always growing.
A ring is an expression of our faith and the grace it will bestow.
We are family, and together we will grow.

Twenty years from now, as you look upon that ring,
smile at the good times we had and the joy it did bring.
We take for granted the little things that make up our short time here.
But when we look back, and remember the past, we will hold these memories dear.

That little piece of metal is actually a sign.
It's a symbol of our hope and trust in the Devine.
It reminds us of who we are and all that we can be.
And by looking in its stone, our reflection we can see.

So, when looking at your ring, know that it is you,
It also is your School and all her spirit, too.
Hold that ring close and keep it near to your heart.
And with that single ring, know that we will never part.
